

## CONCURE MVE<sup>2</sup> Vapor Barrier Plus (Silicate-Free)

Flooring & Concrete Moisture Prevention Systems

Concure Systems Vapor Barrier Plus is designed to stop floor failures due to: moisture migration through and out of below-grade, on-grade and above grade slabs.

### **Concure Systems Vapor Barrier Plus Benefits:**

- Over 3 decades without a single failure!!
- Floor prep and installations can begin same day
- Eliminates moisture (MVE) permanently, NEVER needs re-sealed
- Compatible with ALL cementitious floor patching materials, floor coverings, adhesives and epoxy coatings
- Ease of installation
- Helps block Radon Gas & ASR / Zero (0) VOC / LEED Contributory
- Inhibits rust and corrosion of steel
- Eliminates efflorescence and the need for surface hardeners and sealers
- Full floor replacement LIFETIME warranty (material/labor) if failure is due to moisture through or out of the substrate (never has happened in over 3 decades).
- Becomes integral in the slab; bead-blasting, grinding, sanding, concrete chipping, future demo and renovations will not violate or compromise our Vapor Barrier Plus System
- ***LIFETIME warranted with or without a vapor barrier/retarder***
